Meeting Details:

Date, Time and Mode	Members Present (list those present)	Discussions
14/08/2024, 9:20pm-10pm, Online on MS Teams	ohqihen hirun	- Set up group expectations - Upload and populate the group diary - Discussed how commits should work - Created lucid chart link - Talked about days we would have meetings - Creating small milestones on when we want certain tasks completed
16/08/2024	Ohqihen hirun	- Discussed what was next for the assignment, since we added the entities with their primary keys we agreed that the next task would be to work on relationships - For the small milestone we set we planned to complete it by sunday night - We planned to have our next meeting on sunday night - Discussed the assignment further to see if we had any differences
18/08/2024	Ohqihen Hirun	- We discussed the relationships we had added to the diagram, in agreement. - Created the assumptions page during meeting - Planned on when to submit assignment (tuesday night) - Our next task was to work on the non-key attributes and look for intensely for any mistakes we planned to finish this by the next day
19/08/2024	Ohqihen Hirun	- We finished the non-key attributes and discussed if everything listed was correct - Our next milestone by tomorrow was to complete the relationship meaning. I.e the word listed between the relationship. - Midway through the assumptions page, we discussed if everything on the page made sense - We discussed the changes we had made on the diagram and continued to prioritize checking for mistakes - We confirmed that we want to submit on tuesday

		night
20/08/2024	Ohqihen Hirun	• Discussed final changes we had made • Looked over the diagram as well as other required documents one last time • Ready to submit assignment
11/09/2024 online	Ohqihen Hirun	• Established a plan for next part of the assignment • Discussed when to meet • Went over results from previous assignment
13/09/2024 Face-to-face	Ohqihen Hirun	• Created smaller milestones on what is required • Went over brief in detail • Established that we want to convert conceptual into logical and start normalisation
14/09/2024 online	Ohqihen Hirun	• Started normalization and planned to finish by weekend so that the logical model can get started on datamodeler • Finish converting conceptual into normalization
16/09/2024 online	Ohqihen Hirun	• Finished off normalization, converted conceptual and looked over additional information from brief in detail. • Made a plan ensure that logical model on datamodeler is finished by Tuesday night
17/09/2024 online	Ohqihen Hirun	• Went over everything together to ensure that the modeler is working • Planned to get the schema and output created on the day as well
18/09/2024 online	Ohqihen Hirun	• Formatting all the documents and getting ready for submission
